

## STUDENT SESSION I. (1)

04.04., 14:00 - 15:45

Fakultetska vijećnica (FAZOS)

	NAME	TITLE
1	Žgela Marija	Treatment of venous leg ulcer in a patient with systemic lupus erythematosus in family medicine practice
2	Barunčić Doris	Josip Juraj Strossmayer's university students' Basic Life Support (BLS) knowledge
3	Brić Ivana	Challenges in the diagnosis of painful ophthalmoplegia
4	Zorić Snežana	Acromegaly caused by a pituitary tumor - case report of a woman
5	Deghenghi Rea	A case of self-inflicted traumatic cataract in a girl affected by Marden-Walker syndrome
6	Trifunović Sebastijan	A long road for each centimeter: a case of severe and treatment-refractory ulcerative colitis
7	Gojmerac Lucija	Giant cell arteritis with lower limb ischemia and polymyalgia rheumatica successfully treated with tocilizumab
8	Toth Boglarka	Examination of PACAP in exosomes of human milk samples of preterm newborns
9	Skok Stjepan	Cardiac myxoma as a rare cause of cardioembolism
10	Taslidžić Antoaneta	Internet addiction and symptoms of depression, anxiety, and stress - cross-sectional study among medical students at University in Osijek
11	Ugljarević Petra	Sleep quality and mental health among medical students in Osijek, Croatia
12	Kresić Lucija	Acneiform eruption due to treatment of ulcerative colitis with TNFalfa blockers
13	Črep Matej	A Comprehensive Review of the Nipple-Sharing Technique in Nipple-Areola Complex Reconstruction
14	Dolački Lorena	Stevens–Johnson Syndrome and Toxic Epidermal Necrolysis: What are the most successful therapy options?
15	Ivanović Martić Laura	Hypersexuality As A Lead Symptom Of Multiple Sclerosis Relapse: A Case Report
16	Opačak Katarina	Utilization of AI in plastic and reconstructive surgery
17	Hegede Réka	TRPV6 variants in chronic pancreatitis in Hungary

## STUDENT SESSION I. (2)

04.04., 14:00 - 15:45

Hall 0.2 (GRAFOS)

	NAME	TITLE
1	Al-Omari Ammar	Functional and Neuroanatomical evidence in line with a mouse CGRP model support the involvement of peptidergic Edinger-Westphal nucleus in migraine
2	Prica Ana	A rare presentation of Leiomyosarcoma metastasis to the cervical spine: a case report
3	Laslo Dorian	Genetic Susceptibility in Anti-NMDA Receptor Encephalitis: a review
4	Bosnyak Inez	A new potential therapeutic target in bacterial keratitis
5	Franjić-Tubić Ivona	Pulmonary metastasis in a patient with undiagnosed low-grade endometrial stromal sarcoma
6	Bukulin Fran	Tracheoesophageal fistula as a complication of radiotherapy in lung cancer
7	Gavrančić Marko	Influence of hydrogen peroxide on doublecortin expression in neural stem cells
8	Radovanić Ivona	Congenital facial nevus: excision and reconstruction in a 40-year-old patient
9	Kolar Mihael	Physical activity and its associated factors. Cross-sectional study among students of University of Osijek, Croatia.
10	Kocsa János	The functional and morphological damage to Edinger-Westphal nucleus observed in a Parkinson's disease model cannot be reversed by benzerazide-levodopa treatment
11	Török Izabella	The TRPA1 ion channel is downregulated in the centrally projecting Edinger-Westphal nucleus in a mouse model of chronic alcohol consumption
12	Prelec Iva	The knowledge on adverse effects of medications and supplements used during pregnancy
13	Konkoly János	Transient receptor potential ankyrin 1 (TRPA1) ion channel in the centrally-projecting Edinger-Westphal nucleus may diversely modulate the symptoms of posttraumatic stress disorder in mice
14	Zahirović Laura	De Clérambault's syndrome or another erotomania
15	Kalazić Astrid	Thyroid-Gut-Axis: The influence of the intestinal microbiota on thyroid function
16	Milicic Milica	Examination of the pontine micturition center (Barrington's nucleus) in a mouse model of chronic stress
17	Bašić Adrian Borna	Attitudes of students at Josip Juraj Strossmayer University in Osijek and University of Rijeka towards aesthetic procedures
18	Prókay Petra	Investigation of the central projecting Edinger-Westphal nucleus in a mouse model of Alzheimer's disease

## STUDENT SESSION I. (3)

04.04., 14:00 - 15:45

Aula Media Hall (FAZOS)

	NAME	TITLE
1	Ćorluka Lea	Laparoscopic cystectomy in a 15-year-old patient with Prader-Willi syndrome
2	Čeović Doris	Hepatitis C as an atypical trigger of intrahepatic cholestasis in pregnancy
3	Đuran Ivan	Secondary Hemophagocytic lymphohistiocytosis (HLH) known as Macrophage-activation syndrome (MAS) - complication of unrecognized Systemic lupus erythematosus (SLE)
4	Geneja Jurica	Microdeletion syndrome 16p11.2: clinical and molecular characterization
5	Tomašić Lara	Grade 3 supracondylar fracture of the humerus with entrapment of the brachial artery – Case report
6	Mišić Antonia	Rehabilitation of an intervertebral disc extrusion by dynamic neuromuscular stabilisation exercises
7	Lukačević Kristina	Waardenburg type II and Tietz syndrome - a case of complex genetic disorder
8	Palčok Marija	Non-traumatic subcapsular splenic rupture without changes in the blood count
9	Tolić Damir	Oropharyngeal dysphagia in statin-induced myositis – a case report
10	Šadura Dora	Status epilepticus in a pediatric patient caused by unusual shunt malposition
11	Vidić Darija	The lower trapezius island myocutaneous flap: Reconstruction of posterior neck after basal cell carcinoma resection
12	Pavlovsky Maja	Rubinstein-Taybi syndrome: clinical and genetic features
13	Relja Lucija	Acute upper limb ischemia caused by arterial thoracic outlet syndrome: a case report
14	Šarlija Sara	The challenge of recognizing Parkinson's disease in veterans with PTSD
15	Romčević Igor	Cleidocranial dysplasia: "Stranger things" on CT and X-Ray imaging
16	Škibola Paula	Unrecognized anatomical anomaly - Urethral duplication in a 15-year-old boy: a case report
17	Naletilić Fran	A Case Report of Nagata Auricular Reconstruction in a Patient with Bilateral Microtia
18	Surać Morena	The airway management of choanal atresia in a newborn with Apert syndrome
